dependent Order of Odd Fellows, meet at Odd Fellows Hall, over the Congregational Church, every Thursday evening. A punctual attendance of members is requested. All visiting members in good standing are cordially invited to attend.

H. C. SHEETS, S. G.

FRIDAY, DECEMBER 17, 1875.

MANKIND has been learning six thousand years, and yet how few have learned that their fellow men are as good as themselves.

THERE are from four to five inches of ice at Schaffer's and on the Truckee ice pond, and about nine inches on the pond at Prosser Creek.

MOODY and Sankey are coming to San Francisco shortly, so it is said, and steps are being taken to obtain the use of the Mechanics' Pavilion for their use.

ASTON's wealth was considerably over-estimated. The best informed among the deceased millionaire's friends put the aggregate of his wealth at \$45,000,000.

THE delinquent Hale & Norcross assessment list is published. The total amount of the assessment is \$30,000, of which about \$70,000 has been paid. The sale will take place on the 31st.

THEY have a spring in Texas that yields water resembling lemonade in taste, which is very pleasant and healthful. It does seem as if Nature is doing all she can to discourage whisky-drinking in that State.

THE PROCEER Record publishes a rumor that Philip Klingensmith, one of the principal witnesses for the prosecution in the case of John D. Lee, was assassinated near the Colorado river on the 25th of last month. Assassination is one of the principal tenets of the Mormon Church.

OPHIH ELECTION.—At a meeting of the Ophir stockholders C. L. Weller, J. D. Fry, A. K. P. Harmon, J. H. Dobinson, Joseph Sharon, A. P. Wade and Maurice Dore were elected Trustees, with Weller, President; Jos. Marks, Secretary, and Sam T. Curtis, Superintendent.

THE Mexican was organized about a year ago, and has levied one assessment of 50c per share last March, amounting to \$59,400. The claim was formerly owned by the Ophir, and consists of the north half. There has been but little work done, and the expenses have been light. The developments in the Ophir, if found to be extensive, will help the Mexican mine.

THE articles of incorporation of the Occidental Gold and Silver Mining Company, and the McClellan Mining Company have been filed. The companies propose to conduct mining operations in Storey county. The Directors of both companies are: J. C. Fitcher, G. E. Hopkins, H. D. Leland and Henry Brodhoff.

MR. Blaine's proposed amendment to the Constitution, providing that no State shall make any law respecting the establishment of religion, or prohibiting the free exercise thereof, and no money raised by taxation in any State for the support of public schools, or derived from any public fund thereof, or any public lands devoted thereto, shall ever be under the control of any religious sect, and that no money or lands so donated shall be divided among religious sects or denominations.

THE Ayres Consolidated and the Ayres & Hopkins silver mining companies have incorporated, their object being to conduct a general mining and milling business in the State of Nevada. Each of the corporations have a capital stock of \$10,000,000, in 100,000 shares of \$100 each. The Directors are as follows: Of the Ayres Consolidated, Joshua L. Ayres, Henry Lacy, George L. Woods, Wirt Hopkins and O. P. Willis. Of the Ayres & Hopkins, Joshua L. Ayres, Henry Lacy, Geo. L. Woods, P. D. Barnhardt and Wirt Hopkins.

ON a tombstone in South Carolina is the following beautiful tribute to departed worth:

Here lies the body of Robert Gordon, Mouth slightly, and teeth accord'n, Stranger tread lightly o'er this wonder, If he opens his mouth, you're gone, by thunder.

THE SPANISH QUESTION.

The President's distinctive points of issue between the United States and Spain, as stated in non-official but usually well-informed circles, are as follows:

First—The United States ask that in future all American citizens in Cuba accused of violating the laws, shall be tried by civil courts, and not by military tribunals, with all the rights in such cases as are secured by the seventh article of the treaty of 1795.

Second—That all sentences by military tribunals which affect American citizens shall be annulled.

Spain in some degree favorably considers the claim of the United States in the first proposition, giving accused parties the right to be heard by counsel, to summon witnesses, and employ other necessary safeguards, but with the reservation that all such trials shall be according to the law of 1821, which provides for more expeditions proceedings than those of civil courts for common crimes in time of peace. Spain also offers to revise all sentences passed by courts martial on American citizens where it shall be satisfactorily shown that such sentences were in violation of established laws. This reply is stated to be unsatisfactory to the United States.

The National Republican publishes an editorial, giving a semi-official statement relative to the Cuban question. It considers that the general idea that prevails, that a recognition of Cuba would be followed by war between the United States and Spain is an error. It quotes historical facts, as recent as the late Civil War, to show that the recognition by the United States of the belligerency of the Cubans would be justified by Spanish precedent. The situation resolves itself into one of peace if Spain accepts our friendly efforts, or one of war if an adjustment of some kind is not reached without further vexatious delay. It is argued that no other deduction than this can be made from the facts as we have presented them, and we do not hesitate to add that the idea of a confederation of the West Indies Island, under a Spanish protectorate, would prove to be a failure.

EXPLANATORY.

It is rather refreshing to us to be told by the editor of the Carson Tribune that we have been actuated by spleen in making a few truthful statements in regard to Centennial matters and Mr. C. C. Stevenson. We have no "covert spite" whatever to gratify toward Mr. Stevenson. If our motives have not been very plainly expressed we confess our inability to give them shape in the English language, but we certainly object to their being misconstrued. There is no "nigger on the fence" in our desire that Mr. Stevenson shall have justice. We are just as anxious, perhaps, as any native born American citizen that Nevada should do herself credit at this Centennial Exposition, and since the Board of Managers, especially its self-constituted Chairman, has shown such a break-neck haste to discuss its domestic troubles in the public journals, we claim as our undoubted right the privilege of choosing that course which seems to us the best to accomplish that end. We honestly believe that Mr. Stevenson's connection with the Centennial management in any shape or manner, is a great detriment to the harmonious carrying out of the provisions of the Act of the Legislature donating \$20,000 for sending mineralogical specimens to the Centennial Exhibition at Philadelphia. We have used no personalities towards Mr. Stevenson; we have only referred to the record of his public acts, and we hope that we shall be spared the necessity of becoming personal in our remarks. If forced to it we shall use a scourge that will smart worse than rubbing saltpetre on old sores.

THE FIRMIN SISTERS AT EUREKA.—From the Eureka Sentinel we learn that the above named excellent ladies and the immortal John Jack are giving a series of their very interesting entertainments in Eureka. Referring to the troupe the Sentinel says: "Professor Jacobson, the world renowned violinist, and, in the eyes of susceptible ladies one of the handsomest man extant, is also of the company."

There is no according for taste, and if the Eureka ladies have a penchant for the style of beauty the professor packs around with him we have nothing to say. As a violinist, we have always considered Jacobson a success, but in point of beauty, rather behindhand. His countenance always impresses us as that of a Charles spaniel—pretty for a purp, but not exactly the style for a handsome man.—Carson Tribune.

POPULATION OF NEVADA.

Following is the population of Nevada, with the number of whites, colored and Chinese inhabitants in each of the several counties in the State. They are compiled from the official returns of the Census Marshal's report for 1875.

Churchill county, 245 whites, 35 Chinese.

Douglas, 1,637 whites, 22 colored, 59 Chinese.

Elko, 3,401 whites, 21 colored, 180 Chinese.

Esmeralda, 1,236 whites, 2 colored, 50 Chinese.

Eureka, 4,302 whites, 67 colored, 680 Chinese.

Humboldt, 2,156 whites, 11 colored, 290 Chinese.

Lander, 2,313 whites, 11 colored, 56 Chinese.

Lyon, 1,974 whites, 2 colored, 145 Chinese.

Lincoln, 2,600 whites, 23 colored, 129 Chinese.

Nye, 1,631 whites, 9 colored, 77 Chinese.

Ormsby, 2,526 whites, 86 colored, 550 Chinese.

Roop, 133, race and color not given.

Storey, 18,053, whites, 134 colored, 1,341 Chinese.

Washoe, 3,072 whites, 14 colored, 267 Chinese.

White Pine, 2,386, 91 colored, 80 Chinese.

Total number of whites, 48,260, colored, 494, Chinese, 3,582, grand total, 52,336.

According to the census of 1870 the population of the State at that was 42,491, showing an increase of 9,845 in five years.

Esmeralda, Lander, Lincoln, Nye and White Pine have each lost in population during the last five years. The loss of Lander is accounted for by the organization of Eureka county out of its territory within the period mentioned.

ATTORNEY-GENERAL'S REPORT.

The Attorney-General's report contains many references to the wrongs and cruelties practiced upon United States prisoners in State prisons, and suggests that Congress confer upon the office of Attorney General the power to change the place of confinement of any prisoners who may be subjected to inhuman treatment. He also urges the erection of more Territorial prisons, and states that it costs the Government \$750 to transfer a single prisoner from Arizona to New Mexico.

He reviews the difficulties which have arisen in the United States Court in the Territory of Utah from polygamous marriages, and gives a detailed account of Brigham Young's alimony case, and says that it is superfluous to comment on the legal confusion and inconceivable mischief which must follow the sanction of polygamous marriages by the Courts of the United States. If the nineteenth concubine of a man having a lawful wife living is to be treated by Courts as a lawful wife, for the purpose of giving her alimony and counsel's fees, *pendente lite*, then the offspring of such illicit intercourse must be regarded as legitimate, for the same time, and Courts will thus give countenance to a system of corrupt principles.

To make the awards at the Centennial next year two hundred judges are to be appointed. One hundred of these will be appointed by the Centennial Commission, from the United States, while the other hundred will be selected by foreign nations. The business of these judges will be the awarding of the premiums upon every article in the Exposition; their term of service will extend from May until November; they will be paid \$1,000 traveling expenses, and from their decisions there will be no appeal. It is probable that Nevada will be entitled to one representative upon this board.—Carson Tribune.

We nominate Stevenson, the "martyr," for the position.

SUPREME COURT DECISION.—In the matter of J. W. Rover, on appeal to the Supreme Court, asking for a new trial, the Court this morning rendered its decision. The verdict of the jury was set aside and a new trial ordered. It will be recalled that the young man was found guilty of murder in the first degree for the killing of J. N. Sharp, near Inferno, Humboldt county. The decision of the Supreme Court gives Rover another and doubtless a good chance for his life.—Carson Tribune, Wednesday.

"Look out for the train when the bell swings," is the latest.

LATEST NEWS ITEMS.

The land bill of Page provides that no placer mineral land shall be exempt from homestead or pre-emption unless bona fide mining claims exist thereon or necessary to mining claims, and fixes the price of such lands at \$1 25 per acre.

One man was killed and several others injured by the Bridgeport fire, noticed Wednesday, and the loss of property amounts to half a million.

Auditor Clinton of New Orleans, who tendered his resignation, to take place December 15th, don't want to give up his office.

The United States soldiers accused of murder and burglary in Texas, have been honorably acquitted.

John W. Johnston was (in caucus) renominated Senator from Virginia.

A characteristic dispatch comes from the Associated Press reporter of Chicago. It by innuendo implicates the President, Babcock and the rest in the whisky frauds.

A New York dispatch intimates that Tweed is not far off and is trying to negotiate a compromise with the city of New York.

A full Congressional report is telegraphed and some of the proceedings are interesting. The House decided that it would be unwise and unpatriotic for the people to nominate Grant for a third term.

It is believed the long overdue steamer L'Amerique has been seen in tow of another steamer.

One Thomassen has confessed that he owned the box of dynamite the explosion of which caused the destruction on the Mosel and that he had arranged clock-work to cause it to explode. His intention was to destroy the steamer Mosel at sea to get insurance on property shipped on board of her.

A gentleman driving with two ladies was stopped and robbed on the Cliff House road Tuesday night. The robbers then took the rig and rode into town, leaving the young man and his lady friends to follow on foot.

From San Diego comes news that a band of sixty Mexican robbers are organized to prey upon Southern California.

The police of San Francisco are taking the weapons away from the Chinese.

A fatal epidemic is raging among the Tejon Ranch Indians.

A REMARKABLE STORY.

A startling and important special telegram from St. Louis, under date of the 15th, gives some of the secret history of the frauds perpetrated on the Government by the whisky rings, extending back as far as 1873. The story, if true, releases Babcock from the suspicion of being connected with the frauds.

A startling and important special from St. Louis states that Lindsay Murdoch, Collector of Internal Revenue for the Second Missouri District in 1873, was engaged with Joyce and McDonald in defrauding the Government in June of that year, and that overcome by fear, he wrote a full confession, sworn to before a Judge, and sent three sworn and certified affidavits to Washington, one to President Grant, one to Babcock and another to Secretary Richardson. No response was received. Murdoch was soon thereafter removed. Joyce and McDonald continued to thrive prosperously, and on one occasion gave Murdoch a thrashing for having confessed. It is regarded as strange that the Government didn't use the information thus received at an earlier date. General McDonald is now in jail, and is said to have on yesterday confessed a complicity in the whisky ring. The scheme grew out of an order from Washington to collect campaign funds. The machinery was at once put in order, and it occurred to them that it would be easy to collect money for their own use, and it was done. He states that Avery is innocent, and that the notes and telegrams attributed to General Babcock are genuine, but none of them referred to the whisky business. It is explained that, during the late Collector Ford's administration, a woman employed in this office was authorized to act as his deputy, and that considerable controversy sprung out of that arrangement, and that Babcock's notes and telegrams all had referred to this woman and the official position she occupied. Collector Ford was inveigled into the ring by McKee, of the Globe-Democrat, who was well paid for his dirty work.

ALL members of Haswell Lodge, No. 18, I. O. G. T., are desired to attend their regular meeting this evening.

THE PRESIDENTIAL OFFICE.

Several bills have already been introduced in Congress in relation to the Presidential office, all of which limits it to one term, but it seems to be the impression that the term should be extended to six years. Among the bills introduced are the following:

By Mr. Harrison—To amend the Constitution by fixing one term for a President, but making him a Senator for life from the United States at the expiration of his term of office as President.

By Mr. Morrison—To amend the Constitution by fixing the Presidential term at six years, and making the President ineligible to any term of twelve years.

By Mr. Randall—Proposing an amendment to the Constitution, providing that after the next Presidential election the President of the United States shall hold his office for six years, and that neither President nor Vice President (when the office of President devolves upon him) shall be eligible to re-election.

Butte county produces more wheat than any other county in the State by 20,000 bushels.
